

## American Board of Dental Public Health

---

Dental Public Health is one of the nine dental specialty areas recognized by the American Dental Association.

Earning a DMD from TUSDM, combined with an MPH degree from TUSM, qualifies a dentist to apply for residency and certification by the American Board of Dental Public Health.

## Components of the Master of Public Health

---

The Tufts MPH program is Council for Education in Public Health (CEPH) accredited and addresses public health through a multidisciplinary, humanitarian lens.

## Combined DMD/MPH Program

---

School of Dental Medicine  
&  
School of Medicine

## Why consider a career in Dental Public Health?

There is a gap between research findings, oral disease prevention, health promotion practices and knowledge of the public and the health professions.

“Dental Public Health is the science and art of preventing and controlling dental diseases and promoting dental health through organized community efforts.”

Public health dentists promote oral health by:

- Assessing the oral health needs of the community
- Developing and implementing oral health policy
- Providing programs and services that address oral health issues

## Combined DMD/MPH Program

The combined program will allow academically excellent students to earn two advanced degrees in less time than would be required to complete both programs consecutively.

Students can enter the combined program at the start of their third year of predoctoral studies.

### Program Highlights:

- 4.5 to 5-year program
- 4.5 MPH courses as a dental student, and 8.5 MPH courses the year following dental school
- Both degrees conferred upon completion of the program

## Sample Curriculum

- Principles of Biostatistics (w/ Lab)
- Health Behavior and Health Communication
- Principles of Epidemiology
- Public Health and Health Care
- Introduction to Occupational and Environmental Health
- Public Health Research Methods
- Introduction to Occupational and Environmental Health
- ALE Planning
- Healthcare Organization: Budgeting and Management
- ALE Implementation
- Electives
