ASDA Resume Tips:
http://www.asdanet.org/cv/

**List of Action Verbs:** 

http://careers.tufts.edu/stude nts/corres/ActionVerbs.pdf

A resume provides a valuable summary of your individual accomplishments and qualifications. It allows you to present your skills, experience, and knowledge to potential employers in an efficient and concise way. Since a resume is an important document that has the power to influence a hiring manager it's important to be sure that it best represents you.

#### **Format:**

- 1-2 Pages (8 ½" x 11" paper)
- Include headings (i.e. Education, Professional Experience, Research Experience, Volunteer Work, Presentations, Honors & Awards, Professional Membership, Conferences Attended, etc.)
- Chronological order within headings
- Stay consistent (i.e. placement of dates, location, etc.)
- Avoid wasted space, but be careful to cut the margins too short for printing
- 10 pt-14 pt. font (Times New Roman or Arial; no decorative fonts)
- No graphics or shading, since this can distract from your information
- Best to use Microsoft word (rather than resume template)

#### **Content:**

- Personal Information (i.e. Name, Address, Phone, Professional Email) should be placed at the top.
- Do not include information such as marital status, social security, picture, date of birth.
- Tailor your resume for each job you're applying to. Use language and terminology included in the job description to prove you are qualified for that specific position.
- Be honest and accurate, not overly modest.
- Present your experience in a way that makes it relevant to the position you're applying for. (Past experience, which isn't directly related to the work you're applying for, can often be presented in a way that showcases the transferrable skills that were acquired.)
- Don't simply list out your accomplishments; instead, include effective bullet points that describe your previous work and the skills used to achieve these accomplishments.
- Focus on more than the technical work. Be sure to include bullet points that describe soft skills as well (i.e. communication, teamwork, leadership, etc.).
- Start each bullet point with an action verb (i.e. Led, Initiated, Developed, Managed, Created, etc.).
- Use PAR statements to highlight **P**rojects, **A**ctions, and **R**esults.
- Use numbers or percentages to quantify your results (i.e. increased productivity by X, raised X dollars, supervised a staff of X)

# Final Tip:

Have a trusted advisor proof read before you submit to ensure there are no grammatical errors!
